

RED SOLDIERS ARE MASSING IN BULGARIA

By DEWITT MACKENZIE

AP Foreign Affairs Analyst

There are the makings of another dangerous upheaval in the Balkans.

Freshly arrived Russian troops, with tanks and artillery, are "maneuvering" in southern Bulgaria near the Turkish border. Reliable estimates place the Red military force in Bulgaria at 200,000. The Bulgarian army is being reorganized under the tutelage of Russian training staffs, and has the appearance of being an auxiliary to the Soviet force.

Why is this military activity? Well, the answer must be a guess, but we don't have to look far for a likely answer.

As I read the signs, the dispute between Moscow and Turkey over (1) control of the Dardanelles and (2) the territorial concessions which the Soviet wants in Turkish Armenia, seems to be coming to a head. The stakes are vast, and both sides are packing guns—precautionary, probably, but none the less suggestive.

Vital To Russia

The status of the Dardanelles is of the utmost importance to Russia. This narrow strait (the one Leander used to swim nightly to visit his true love) is the gateway leading from the Black sea into the Aegean and the Mediterranean. That is, it's Russia's only exit from the Black sea and without free use of this passage, Moscow cannot make good its apparent ambition to become a Mediterranean power.

The way things now stand, Turkey controls the Dardanelles under the so-called Montreux convention of 1936—signed by Bulgaria, France, Britain, Greece, Japan, Romania, Turkey, Russia, and Yugoslavia. This treaty permitted Turkey to remilitarize the strait. Freedom of passage for other nations was recognized, except that Turkey could close the Dardanelles if she was at war or was threatened by war.

Reds Ask Revision

The Montreux convention didn't trouble Russia at the time of its signing, but it has become mighty matter now that she is the dominant power of that part of the world and wants free access to the Mediterranean. Thus it came about that at the last meeting of the Big Three at Potsdam the Soviet asked for a revision of the Montreux convention. President Truman stood for an international commission to control the strait—and there the matter still rests. The Turks naturally don't cotton to the idea much, and hold that the convention would have to be altered by the same countries which established it.

To add fuel to the fire, another question developed between Moscow and Ankara. The Soviet Union claims the Kars, Ardahan and Artvin districts of Turkish Armenia. These are in the northeast corner of Asiatic Turkey, at the southeastern end of the Black sea, and lie against the frontiers of the Soviet republics of Georgia and Armenia. The three districts were ceded to Turkey by Russia in 1921, as a good will gesture. They now have a strategic value which makes them valuable to Russia.

RUMOR KONOYE MAY REFUSE TO TAKE JAP POST

Tokyo, Oct. 23 (AP)—The tottering emperor system, which has ruled the Japanese people for centuries, became Japan's number one political issue today as the once powerful family industrial monopolies crumbled under "new deal."

The double ring ceremony was performed by the pastor, the Rev. Kenneth S. Ehrhart, in the presence of relatives and friends of the couple.

The attendants were: Mrs. John Kohler, East Berlin, a sister of the bride and Harry Cramer, Brodbeck, a brother of the bridegroom.

The bride is a graduate of East Berlin high school, class of 1940. For the past year she was employed in the Navy Medical department, Washington, D. C. She is a member of the Lutheran church of East Berlin.

Cpl. Cramer is a graduate of Cedorus Township high school, class of 1935. Prior to his induction, he was employed by P. H. Glatfelter company, Spring Grove. He has been in the service for 40 months, having been two years overseas with the 9th Air Force in England, France and Germany. He is on a 45-day furlough, after which he will report to Fort Meade, where he expects to be discharged.

Offer Presidency

This group is believed to have approached Prince Fumimaro Konoye, three-time former premier and the nation's first postwar vice premier, to accept the presidency. The prince indicated he would decline.

The Diet committee, forming what probably will be a conservative party containing remnants of both the old line seiyukai and minseito, also called for a nation dedicated to peace and a government responsible to the Diet.

The Carnation Guild will meet

Thursday afternoon with Mrs. S. A. Skinner, of Arendtsville.

Pvt. Robert W. Guise, son of Mr. and Mrs. W. A. Guise, Gardners, is spending a 10-day furlough with his family at Mt. Holly Springs. Private Guise has just completed 17 weeks of training at Ft. Bragg, N. C. At the conclusion of his furlough he will report to Camp Pickett, Va. A brother, Pfc. Gilbert, who has been in the service two years, remains at Camp Claiborne, La.

The Communists have no full platform yet, but their speakers repeatedly have insisted on elimination of Tennoism. This unprecedented open discussion of Tennoism as a political issue apparently has heightened confusion among the public, which is shocked by recent challenges to customary veiled security of the emperor.

Socialists made no mention of Tennoism in their recently announced platform. Religiously sources say the party's left wingers advocate elimination of the emperor but that other elements insist upon retaining the Mikado.

As to the emperor's position in changing Japan, Konoye asserted that the Mikado's highly touted divinity never had been a legal concept, but admitted that constitutional revision on which he is working would rob Hirohito of some of his absolute powers.

Meanwhile, Japan's education system came in for a radical change. MacArthur's headquarters in a directive to the cabinet ordered feudal militarism abolished from the school system and replaced with instructions in the ways of peace.

The opening fall meeting of the Biglerville Parent-Teachers' association will be held this evening in the school auditorium.

One hundred and twenty-five persons attended the roller skating party which a group of employees of the Musselman Canning company plant in Biglerville held last Friday evening at the Rainbow roller skating rink near Carlisle. Arrangements were in charge of Miss Charlotte Otto.

BELGIAN ARTIST ENJOYS LIFE ON ISLE OF BALI

By HAL BOYLE

Denpasar, Bali (AP) — The old Belgian painter gazed out into his garden by the sea, where Balinese drums throbbed a native dance tempo.

From the garden, stone idols of forgotten Hindu gods stared back at him with sightless eyes.

"The time is passing—passing," mused the painter, 66-year-old Adriean Jean Le Mayeur.

"I cannot believe it has been 14 years since I came to this island. My life has been a happy dream here."

Proved Two Things

"All except the last four years. They have been a nightmare."

By his life Le Mayeur has proved two things—that educated man can forego the "civilized" world and be happy, and that love can show the way for east to meet west.

He and his native Balinese wife for a decade have known happiness enjoyed by few couples anywhere. They have built a home that is a true temple of beauty.

Le Mayeur was 52 years old and a successful Brussels artist when he came to Bali on a world tour through strange lands to find subjects for his paint brush.

Sun, Sea and Youth

"I knew at once that Bali would be my life," said the artist. He is lean and tanned, has long, gray-streaked hair and is very pleased when you tell him he doesn't look his years.

"It is the sun and sea—they keep you young."

His first model was a 16-year-old Balinese dancing girl named Pollok. He fell in love with her but had to court her for four years before she agreed to marry him. She was poor and had much to gain by marrying him, but held off because she wasn't sure she would be happy married to an European.

"Her dowry was a coconut," said Le Mayeur, looking fondly at his golden skinned wife as she poured tea. "For 14 years she has been my mother and model—and for 19 happy years my wife."

Exiled Six Months

At 30, she is still slim, graceful and beautiful without the help of masseurs, mud baths or cosmetics.

"I have never regretted the years I have spent here," said Le Mayeur.

During the Japanese occupation, Le Mayeur ran out of paint and canvas and he had to make his sketches on native fiber sheets. For three years the Japanese left Le Mayeur and Pollok alone but then forced them to move into the interior of the island. The excuse was that light shone at night from the artist's home and might serve as a beacon for Allied bombers. For six unhappy months, they were exiled from their seaside home and garden.

ASKS FREEDOM FOR U. S. SCRIBES

Washington, Oct. 23 (AP) — A world free press drive centering around foreign relief funds was narrowed down today by its sponsors to call only for non-interference abroad with the American press.

The modification had been suggested by the House Republican Steering Committee to an amendment proposed by Rep. Clarence Brown (R., Ohio) to legislation appropriating \$550,000,000 for the United Nations Relief and Rehabilitation Administration.

While endorsing "the principles and objectives" of Brown's proposal, the Steering Committee, which shapes Republican policy, decided to fight only for freedom of American press representatives abroad.

Brown had proposed originally that no UNRRA funds or services be expended in foreign countries which denied to domestic or foreign news-fathers free access to information or interfered in any way with the American concept of a free press.

"It was decided," Brown said in an interview, "that we might be overstepping ourselves by undertaking to tell other nations how they should deal with the press of their own countries."

"But certainly we believe that any nation receiving our relief funds shall accord to our own press the right to discover and report what is being done with that money and what is going on inside the countries receiving it."

Mark State Funds For Public Works

Harrisburg, Oct. 23 (AP) — A long list of state institutions was earmarked Monday for more than \$11,000,000 worth of new construction, repairs and renewals.

Governor Martin approved allocations for 22 Welfare Department hospitals and homes, nine colleges and schools, two Health Department sanatoria, and an unspecified number of state police barracks.

His office said that announcement of the locations where work is to be done on state police barracks awaits allocation of the remainder of \$1,850,000 available for barracks and training school.

The Health Department's allocation was split between Mont Alto sanatorium, getting \$238,250, and Cresson sanatorium, \$735,350.

No Data On Report Of Stalin's Death

London, Oct. 23 (AP) — Andrei Gromyko, Soviet ambassador to the United States, said Monday in answer to question that he had "no information to support" rumour that Generalissimo Stalin is gravely ill.

Asked whether he could give a denial, Gromyko repeated, "I have no information to support such rumors."

Rumors concerning Stalin's health have been heard since the Potsdam conference and have gained wider circulation since Oct. 10 when it was announced from Moscow that he had gone on a vacation.

COST IS CITED IN PITTSBURGH WAR ON "SMOG"

Pittsburgh, Oct. 23 (AP) — Pittsburgh, long famed as "the Smoky city," may lose its title if the United Smoke Council has its way.

First gun in the battle to get rid of Pittsburgh's notorious "smog," which the council declared costs every resident \$22 a year, will be fired tonight at a rally in Stephen Foster Memorial.

The \$22 per capita, the council said, is paid out for ruined exterior painting, cleaning, medical and hospital care, soiled merchandise, extra lighting, damage and depreciation to buildings and many other items.

Dr. Summer B. Ely, superintendent of the city's smoke prevention bureau, said as soon as Pittsburghers realize smoke costs money, the problem will be well on the way to solution.

The city now has an anti-smoke ordinance, supposed to go into effect at the end of the war, but actual enforcement will not start until March, 1946, because of the impossibility of getting proper smoke-eliminating equipment.

The meeting tonight will be only the opening gun in a campaign to educate the public.

Many persons, said Dr. Ely, believe that railroads and heavy industries are responsible for most of the smoke. This is not true, he declared, "because they know the value of not losing smoke."

Main sources of trouble, Dr. Ely asserted, are small companies, semi-commercial buildings and private residences, whose owners are unaware what fuel habits are costing them.

Coal smoke pours from 97,476 residence chimneys, 9,764 stacks at office buildings, churches, clubs, stores, apartment houses and boarding houses; and 8,886 stacks at food stores, restaurants, laundries, department stores, drug stores and wholesale establishments.
